## 3-Point Attachment

Common section configurations (in feet)

Delta 3-Point Carriers are great for small / medium-sized jobs where disengaging the tynes between sites is desirable. Lift the sections at the edge of the arena or driveway to cross pavement or travel at higher speeds; lower the carrier to set the tynes into your next surface.

The Delta 3-Point carrier is packaged for shipping unassembled and includes all hardware for full set-up. The 3-Point can carry either the Standard or Turnlock sections of any tyne diameter.

## 3-Point Attachment

Part Number	3-Point <small>Lift Only</small>	Weight <small>(w/o sections)</small>
10-102916	4'	113 lbs.
10-102917	6'	128 lbs.
10-102918	8'	140 lbs.
10-102919	10'	159 lbs.
10-102920	12'	192 lbs.
10-102921	14'	205 lbs.
