

CORN/SOYBEAN

Tar River Seed Planter is an excellent choice for planting Corn, Soybean, Sorghum or Millet. Built to last with stainless steel seed and fertilizer hoppers the CSP-2R or CSP-4R are cost effective units for small farmers. Units come standard with Corn and Soybean plates, optional Sorghum and Millet plates are available. The SCP-4R 4-row units comes standard with hydraulically lifting row markers, which requires 1 remote. Rows are spaced at 36" during assembly but are adjustable.

Corn and Soybean plates - STANDARD

Row Marker - STANDARD on 4 Row

Heavy chain to ensure seed coverage

Easy seed adjustment
