DRL AND DHDS-63

DRL-072

The DRL-048 comes with 7, and the DRL-072 comes with 10 adjustable disc heads to quickly seed grass, corn, beans, oats and more. The seeder is equipped with two stainless steel boxes with closeable slides for each row, so you can apply fertilizer to each row while planting. The DRL is designed to be used as a secondary tillage tool. Ground conditions need to be disced or tilled prior to use.

- ◇ 6" Spacing
- ◇ Spring Loaded Double Disc Opener
- ◇ Disc Scrapers
- ◇ Divided Stainless Steel Hopper
- ◇ Standard Seed/Fertilizer seed cups on front and rear
- ◇ Full width Cage Roller
- ◇ Compaction scrapers
- ◇ Rear Roller
- ◇ DRL-048 Hopper Capacity: 3.50 Cu. Ft. Front Hopper
2.50 Cu. Ft. Rear Hopper
- ◇ DRL-072 Hopper Capacity: 5.00 Cu. Ft. Front Hopper
4.00 Cu. Ft. Rear Hopper

The DHDS-063 is a durable disc harrow with seeder. It is equipped with 7 disc heads in the front and back, which efficiently cuts and pulverizes the soil, creating an ideal seedbed for optimal germination. With its adjustable disc heads and precise seed metering system, the DHDS-63 provides accurate and uniform seed distribution.

DHDS-63

SPECIFICATIONS:

Model	Working Width	Working Depth	Min HP Req	Front Cup/Rear Cups	Spacing	Double Disc Openers	Cat. Hitch	Weight
DRL-048	48"	3/4" - 2"	15	7	7"	7 sets	1	569 lbs.
DRL-072	68"	3/4" - 2"	20	10	7"	10 sets	1 & 2	625 lbs.
DHDS-63	63"	3" - 4"	25	7	-	N/A	1	803 lbs.

SAYA-500 SERIES NO-TILL DRILLS

The SAYA-505 (55") & SAYA-507 (78") are cost effective Light Duty No-Till Drills. The 505 has 7 and the 507 has 10 swept back spring loaded double disc openers making seeding easy and economical. The Large seed and Legume cups allow for precise seeding in a no-till operation. *Stainless steel hoppers* prevent rust and keep your drill in fine working shape for years to come. The SAYA-907 has a 75" working width and comes with a 3 compartment seedbox which contain 3 different seedcups for seeding of any type of seed. The front section comes with a dual section seedcup that splits between large seeds (corn and soybean sizes) to grass seeds such as wheat and rye. The middle section has a flow adjustable gearbox with special gear seedcups designed for the fluffy warm season Native grasses. There is no need to change chains and sprockets to adjust the flow. A simple handle on the gearbox smoothly increases or decreases seed output. Both the front and middle seedcups feed into a heavy cast iron double disc opener. The rear box contains high precision metering seedcups for the tiny legume seeds. Seeds dispersed from these cups are spread out behind the machine in order to prevent them from becoming buried too deep.

SAYA PULL TYPE & PRESS WHEEL SERIES NO-TILL DRILLS

Introducing the SAYA No Till seeder with Press wheel configuration. All the same great features as the SAYA models with cage roller basket, but now available with press wheels. The heavy spring loaded press wheel precisely follows the ground splitting coulters and double disc assemblies to ensure excellent seed to ground contact for superb germination. The SAYA-505PW and SAYA-507PW come with 7 or 10 rows of coulters and double disc openers. Both units have 2 stainless steel seed boxes. The SAYA-907PW has all the same features of the SAYA-907 but with press wheels to provide enhanced seed coverage.

Perfect seeder for your Food Plots or seeding but with a Pull Type hitch for RTV's or smaller tractors is the SAYA-PT505. The unit comes with an Electrical actuator for simple transfer from working to transport position. The SAYA-PT505 has 7 ground cutting coulters and double disc openers. And includes Heavy spring loaded press wheel ensure excellent seed/ground contact for superb germination.
